

We Know Travel- And We Do It Better

Our philosophy is that travel and accomodation services should be easily arranged through one company with one call, saving you both time and money. Mediacom Services' approach to travel management optimizes program performance through a platform built on respect of the client and project needs, while mitigating risk and providing significant savings.

Approach To The Madness

Location, location, location

Mediacom Services, LLC is headquartered in Los Angeles, with local branches in Georgia, Louisiana, Michigan and at Pinewood Studios in the Dominican Republic. These brick and mortar offices are locally staffed in accordance to each state's film law, are state-specific fully ARC accredited, and registered to do business in that state. Every "T" has been crossed, and "I" dotted to make sure your travel spend is eligible for tax incentives.

Service and availability

We eat, sleep and breath entertainment travel. A team specialist is dedicated 24/7 to each project as a point person. This helps with communication flow and familiarity of your account. We strive to be considered a part of your team, not just a vendor.

Billing & accounting made simple

Mediacom Services, LLC is agent owned and operated, allowing us to make instant decisions on what is right for the production. Flexible billing options, comprehensive reporting tools and on-demand accounting, make working with us an ease. We manage your account and budget like it's our own.

Getting to the point

Fees

\$35/ticket (international or domestic)
No fees on hotel or car bookings
No after-hours fees if handled by us
\$35/call 1-800 Emergency Services.

Connections

With over 40 years of combined experience we know how the industry works and how to make it work best for you. Our relationships will save you money.
